Skills

- Full-Stack Development: Experience with HTML, CSS, JavaScript for building responsive and user-friendly interfaces.
- Backend Development: Knowledge of C++, Python, and SQL for designing and implementing robust systems.
- Frameworks & Tools: Familiar with MVC concepts and backend frameworks; hands-on with GitHub for version control.

Education

(2024-present)

GEORGIAN NATIONAL UNIVERSITY

Bachelor of Informational technologies

3.6

Experience

(2025 October - present)

SOFTGEN | UNIVERSITY COLLABORATION PROJECT

Front-End Developer (Project-based)

- Developing a QR-based attendance management system for university use as part of a real-world collaboration project with Softgen.
- Building responsive and interactive user interfaces using React and TypeScript.
- Implementing role-based dashboards (Admin, Lecturer, Student) with dynamic UI behavior.
- Integrating front-end components with backend APIs for attendance tracking and session management.
- Using Git and GitLab for version control, branch management, and team collaboration.
- Focusing on clean code structure, component reusability, and maintainability.
- Participating in project planning, feature discussions, and iterative development.

(2025 February - 2025 April)

FREELANCING

Full Stack Developer

- Developing responsive websites and web interfaces using HTML, CSS, JavaScript, React, based on client requirements.
- Delivering custom UI solutions, improving usability, and communicating directly with clients to refine features.
